

**ID:** 202045015

**Company:** Wide World Importers

**Location:** New York City

**Event:** Fall on same level due to slipping

**Event Date:** January 25, 2022

**Nature:** Fractures

Final Narrative	Hospitalized	Amputation	Part Of Body	Source
An employee was bringing a newspaper rack out of a storage shed when she slipped on ice/snow that was on the shed's ramp, resulting in her falling to the ground and striking a nearby safety bollard with her leg. She sustained a fractured tibia and fibula and underwent surgery later that afternoon and was admitted to the hospital.	1	0	Lower leg(s)	Ramps, loading docks, dock plates
