

ID: 202045044

Company: Wide World Importers

Location: New York City

Event: Caught in running equipment or machinery during regular operation **Event Date:** February 25, 2022

Nature: Amputations

Final Narrative	Hospitalized	Amputation	Part Of Body	Source
An employee's fingertip was amputated while operating a baler in the back room of the store. The employee was lowering the baler gate when it slammed on the employee's fingertip. The employee was seen in the emergency room, where it was discovered that the fingertip could not be reattached.	0	1	Fingertip(s)	Banding, baling, strapping machinery
